

7/11 cartellana, 18
Rosa Dalla Costa was born in Treviso, Italy. She took her lauream in law at the University of Padova in July 1967. Immediately after she began to work as lecturer in the Institute of Political ~~and~~ Social Sciences of the Faculty of Political Sciences at the same university.

"I must make clear that my research and study have always been centered on the relation between capitalist development and the development of political and legal institutions. The Marxian description of capitalist development has constituted the basis of every phase of my ~~research~~ research.

"The most decisive turn in this ~~research~~ research, what has allowed me to have a deeper understanding of the relation between capitalist development and anti-capitalist struggle, has been and continues to be the analysis of the place of the women within and against this development.

"My ~~original~~ reorientation and my commitment to the women's movement/~~activity~~ ^{in Italy} I owe to the ~~movement~~ ^{known} movement as I have ~~known~~ it in the ~~United States~~ ^{known} US and the UK, and to my association with Selma James whose long ^{political} experience ~~in the movement~~ in the West Indies, the US and Europe ~~helped~~ helped me to clarify many crucial connections in the imperialist division of labor starting from the Third World of the kitchen in the metropolis.

"I am active in the group of Lotta ~~di~~ Femminista (until recently in some cities known as ~~il~~ Movimento di Lotta Femminile). The considerations developed in these pages constitute a large part of the ground on which this group is moving."
