

Dear Selma,

- I just wrote to Silvia in N.Y. about the possibility to come in U.S. with you. Now here are these questions:
- 1) to know exactly when is the meeting in England and where. Those of us who will come will try to come at least two days before to organize the contributions. Tell me meanwhile what kind of contribution you ~~would~~ think is good to prepare.
 - 2) send me as soon you will have the two documents of Rome translated because I think to send them with some notes about Rome and L.F. to S.R. that continued to ask me something to publish.
 - 3) Beppe P. is translating your introduction and I will enclose it in the second edition of "Potere femminile..." that they are planning to do now.
 - 4) Franca (my sister) next month will go to live in Reggio Emilia where she has the possibility to work. This is a fact for the group. Dia began again to work (not politically, to earn money) and the other women are coming ^{back} in Padova these days. We have met Monica and we will meet her ~~again~~ again with the entire ~~group~~ group of Padova these days. I don't know what to do with this house; whether to live with someone but really I do not know with whom, or to take another house but it is always more expensive to live alone and also to change ^{it} house. The best could be to profit by the occasion and to leave for U.S.

M.
