Dear Mariarosa -

Your visit to Washington DC was much too short. There are many discussions that we did not have and now you are gone again to Italy. Still I am glad that you did come. Enclosed is a letter for you to present at your university. If it is not adequate with my signature, let me know and I will get another.

Enclosed is the Moynihan book that you wanted - I could not get another from IPS, but this one is a present for you from me. Also I'm sending you copies of many of the issues of The Furies -- especially you should read the articles on class. ||

Please write when you get a chance and give me your reactions to these newspapers.

take care,

Charlotte

You should write me at the IPS address.
