Padova 4 marzo 1973

Dear Selma,

I met Beppe and I gave to him messages and things for you. Since you will see him very soon I am not repeating anything of what I already told him for you. One important fact: I took contact with Natalia Aspesi that is very famous journalist with whom we are planning a series of services on "Il Giorno" the best daily newspaper. I told her to come to you that was the first thing to do in order to write something good about feminist movement out of Italy: she is very opened and may be she will become in Italy a comrade of L.F. What she will be able to report on the newspaper of course depend also from a lot of fact not totally dependent on her. I think you can say a lot about the F.A. campaign at the struggle of unsupported ~~mothers~~ mothers. I think ~~also~~ also you can ask money for the service you are providing.

About your second letter: I accept the point Pag.46 and I will see the others when I will receive the new edition. I am really in doubt that during this period I will be able to confront the passages that you have changed but I am sure that in any case it is all right.

About everything else you told me in the previous letter I am really disturbed not only by the letter that I consider completely absurd but by ~~the~~ the entire attitude that you have assumed with me. Sincerely I feel an obsessive attitude from you in ~~relation~~ judging my speaking, my expressing in every ~~form~~ form. I cannot reply because your saying that I am cynic and using you and everything else, in the way you are assuming, is for me out of the world. I hope only that ~~our~~ our political activity will clarify everything to each other. If it will not be so I will continue to work with you in any way because also this fact is for me out of question. I will not read again Power of women because there is a

lot of concrete and continually changing things and continuous solutions in a political group that I am glad to be able to find with the others women every day and that could not certainly be ~~for~~ foreseen in an article also if an excellent article. And I am very grateful to the coming of new women in the group, and to the continuous growing of the group itself if a lot of questions find always possibilities of solutions by the necessities of work itself. And also my relation with the sisters B. go on well in spite of everything.

I do not know really for what to look in P. of W. I am ~~am~~ been really disturbed by your absurd accusations and I hope you *have* understood ~~with~~ the reasons because I will not write more about ever.

Love and power
