Dear Peggy Morton,

We are glad to send you a copy of the book we wrote and that has recently been published in England and Italy.

As you can see, you are quoted: on page 16 we refer to your article "A woman's work is never done", which has been one of the most useful to us in the entire feminist literature. It is also true that there ~~are~~ are differences in our two approaches to "the" question. But regardless of the differences, the entire common ground on which we are moving makes us deeply interested in having more direct contact with you and to know more about whatever else you have produced or are producing and your activity and the activity of women working with you.

First of all we ask your~~the~~ ~~permission~~ permission for our group in Italy (Lotta Femminista - Feminist Struggle) to publish X your article in the next issue of our collection "Quaderni di Lotta Femminista (Notebooks of Lotta Femminista) or in other publications related to the needs of the feminist movement in Italy, and permission also to circulate your article more widely.

Please reply to us as soon as possible and it will be our first interest to keep you and the women of Women's Liberation in the US informed about everything we are doing.

We also enclose a pamphlet from England which has been the subject of wide discussion in the movement in that country.

Power to the sisters.

Mariarosa Dalla Costa *Padova*
Selma James *London*

P.S. When you are writing, will you ~~write~~ make a carbon and send a copy each to the above two addresses.
