

Dear Sisters, FB, cartella 1, 20 M

The international conference of the wages for housework network, which has just finished in Montreal has pushed us much further in clarifying our ideas about organisation, the wage, the campaign, or leadership.

The Toronto group sometimes called Toronto wfh #1 has been expelled from the network. They appear to be close in many ways to the Via dei Tadi group, but have been much less articulate in expressing their position. In order to make clear, to ourselves & the network in general, what the division is precisely about, we would like to see the documents produced by Via dei Tadi, in particular one, which they referred to in a letter to members of P.O.W. Britain, written 'just after the split in Padova' & 'presented at the national LF coordinating meeting in Padova Oct 73' - the one that says 'NO to a movement which is a mere square wrest...'

Could you get a copy of this document, & anything else that is relevant including what you have written about the division, & send

AIR MAIL

it to you as soon as possible, as some of us will be writing a report of the conference in Los Angeles & we will not have much time. The address to send it to is:

The conference was excellent & we have come a long way forward. I hope the abortion campaign work is going well.

Love & sisterhood,

Ruth
