My dear Rosa,

Today, only today, this woman Rosanna brought the parcel. The other one (from Bombino?) ~~is~~ has been at Baggio's for at least 10 days!

On Groenauer - I never got one penny from him for the book. I am going to call Susanna Lerch + dictate to her in English what he (Groenauer) must be told. I'll read your letter with Ruth before I say anything. I also want an account of the book's circulation.

Also, Harriet Lutsky <sup>(from Paris)</sup> may be willing to get the money from Git de Coeur for Sylvine. I'll try to arrange it. She was here last week + I could have arranged everything if the parcel had been in my hands in time!

The pamphlet looks beautiful, but it's so expensive! Who will afford it? I hope soon to see a translation - now there are others besides Silvia + Joan Hall to do this work - at least one other.

I will  
write Sylvine  
on  
this.

I am to be away for a week of  
quiet & then two weeks in Bristol  
of semi-quiet. The doctor insists &  
I heed it. But finally the wages for  
housework per spective has gone home -  
The response in N. America has been  
tremendous. And it is clear that  
groups of working class women are  
already demanding the wage per se  
which we are uncovering. Once  
it takes hold there, in a year or  
two it will be a mass movement.  
This is no dream but an estimate of  
power.

Your photos look magnificent &  
show that you have accumulated  
a lot of power there. The women here  
will be delighted & feel stronger. Many  
changes are taking place here, all for  
the better. I will write when there  
is both time & energy.

Much love

Sel
