Dear Maniavosa,

If you are going to Paris it would be a good idea to contact this woman & invite her to the meeting where you speak: Yvette Claveranne
6 Rue du Faubourg St Denis
Paris 10e

her mother's telephone number is 871 0895.

Selma + Solveig + I have talked with her in England. She is involved in ~~the~~ organizing temporary workers for guaranteed pay between job assignments among other demands, & is in close contact with the Comités Chomages or the Collectifs Chomage (who seem to be more or less libertarian). She is not yet feminist & also has not understood that we need wages, but she's interested & we all thought she has good instincts. For lack of anyone better in Paris it would be good to cultivate her. She ^{seems to} take politics seriously, & knows about the struggles women make.

~~I assume you have seen 'fusoumises' from Switzerland we just learned that that group has 20 members. Are you in contact with them? You should maybe coordinate with them the sledge of France. They speak French!~~

I am looking forward to seeing you & making some explanations & apologies. Like many others I have changed a great deal in the last few weeks, because of Montreal. You misunderstood my last letter, I wanted the Busatte's documents to tear apart. But it wasn't really necessary. Re Communicato: Silvia or Clare Mian will probably do a translation we could use here. I am writing to Clare.
Hope to see you in July - please let us know quickly if that is a good time.
Love, Ruth
