NEW YORK WAGES FOR HOUSEWORK
Campaign Office
288-B 8th St.
Brooklyn, N. Y. 11215

March 31, 1976

Dear Friends,

The New York Wages For Housework Committee is holding a Conference in April on Welfare and Wages For Housework. We expect hundreds of women to attend this event. During this time of "crisis" we women are particularly vulnerable to the attack the Government is waging on all workers. Through welfare cuts and cuts in social services we are asked to absorb the cost of the crisis by doing more work in our homes and in the community with less and less money in our hands. But we cannot let this happen. This is why we are planning this conference. We need to organize to resist the cuts and reclaim what is ours: wages for all the unpaid work which has consumed our lives and is still our lot every day of the year.

In order for this conference to be a success we desperately need your financial support. Since most women have little money of their own, especially if you are a welfare recipient, we cannot charge for admission to cover the costs of this conference. The costs include rental space, child care, food, audio-visual equipment, transportation fees for women to come from other states, literature, mailing costs, etc.

We hope you will show your support by mailing us a check as soon as possible. Please make checks payable to the New York Wages For Housework Committee. We thank you in advance.

Power to us All

Sylvia Federici
