Dear Sisters,

We are launching a national campaign against the recent cutbacks by the federal government in Canada in social service and other spending affecting women in particular. Our focus is the family allowance ("baby bonus"- \$22.00 a month per child) which was due for an increase in January. Enclosed is the petition and information packet which we are sending to as many women's, community, tenants, union, social service groups, media, etc. as possible. It speaks for itself.

disregard { Also enclosed is a copy of "Women in Struggle #3-Italy Now"- the latest pamphlet in that series. We are planning to continue to keep them fairly specific, with the next one about welfare struggles. "Italy Now" is available at 50¢ a copy to WFH groups. We are selling it here for 75¢. Please pre-pay when you order if at all possible.

we are going to do an exchange with you for 20 copies. { If your group has placed an order for copies of the WFH issue of the Other Woman newspaper (which should be out in the next month or so), could you send us the money for them if at all possible. Your order from the conference was 20 copies, costing     . We need the money to put it out and our finances are getting tighter with the costs of the family allowance campaign. Thanks.

Power to the struggles,  
Ellen Agger  
Toronto WFH committee
