Dear Maria Rosa -

Have thought of you so often during the past year - wishing to see you - or hear from you - to know how you are -

I am always a bit uneasy when I think of you because of how I let you down by not finishing the article - I hope you forgive me -

Am living at mama's - since neither of us has much money I cannot afford to live alone it works out - also she is much easier for me to live with than any of my friends - she is so much less demanding -

Have you given any more thought to a vacation in the West Indies? God - I would love to have a vacation - especially by the sea -

Virginia is living in Canada - I miss her but she did come visit in December -

My life is very dull - & so am I - work a lot on my job - & don't really do much else -

Hope you are well - Please give my regards to friends -

Much love -

Mary
